

LET'S GROW!

YMCA CAMP OCOEE

The seeds being planted at YMCA Camp Ocoee through renovations will yield a beautiful crop that can be seen in the hearts of individuals, families, groups, and communities at large – and the Program Center is where much of the mission of Camp Ocoee will come to life.

A new **Program Center** will be the focal point of camp – the gathering place where activities, groups and memories bloom. This new 6,000 square foot program center will provide not just additional space, but also a central point for camp check-outs, shaded indoor activities, gym space and new rental facility year-round.

The Program Center will serve not only camp children, but larger groups around the community including school groups, family reunions/events, church groups, corporate retreats and much more.

To provide additional housing for both summer camp and school-year programs, the new **Treehouse Village** will provide a unique experience for 48 campers each summer. This represents the final stage of Camp Ocoee's master plan.
